

NEW DOLPASS

New Dolpass is a portable device for low frequency magnetotherapy, which allows very effective analgesic and regenerating sessions. It is possible to obtain many benefits by applying this device on all the parts of the body which suffer from acute or chronic pains, inflammations or articular rheumatisms. It is effective for bones and joints regeneration and calcification delays, arthritis/arthrosis and osteoporosis. The application with New Dolpass can last all night long. Power supply: 3 rechargeable batteries (Ni-Mh).

Scars / Dermatitis / Dermatoses
Allergies
4 hour application
8 hour overnight application

Technical Specifications

Power Supply	rechargeable battery,
No. of Output Channels	2 independent
No. of Programmes	20 pre-set
Frequency (Hz)	27MHz
Emission	modulated 8-640 Hz
Output Power	max 2x30 Gauss
Dimensions and weight	14*6*3cm, 100 gr only device, 1 kg with accessories

Standard Kit

Bag
2 single solenoids
2 elastic bands
Rechargeable battery
Power supply
User's manual with photos of the applications
